Embryotransfercontract 2018

The undersigned,

mare owner / responsible, declares:

1. To have signed the **health and invoice conditions**.

2. To accept the **embryo transfer conditions**:

- The professional liability insurance from K.I.Hof Ter Leeuwe, its employees and delegates covers in certain cases the damage that may arise as a result of any errors in the execution of the entrusted assignment. The liability for damage resulting from any error is always and without exception limited to a maximum amount of € 6197.34 per mare, all included and nothing excepted.
- By signing this agreement, the owner will expressly waives all claims towards K.I. Hof Ter Leeuwe for all damage exceeding the aforementioned maximum amount of 6197.34 € per mare or for any damage that would fall outside the coverage of the professional liability insurance, regardless of the circumstances or the nature of the facts that would give rise to this liability.
- The recipient mare leaves the company at 45 days of gestation, after confirmation of the pregnancy by K.I. Hof Ter Leeuwe. The donor mare or recipient mother does not leave the company if insufficient knowledge is given, or the invoices have not been paid before departure.
- From 45 days of pregnancy, all risks (loss of fetus, mortality ...) and additional costs are carried by the undersigned.
- An additional insurance can cover these risks. K.I. Hof Ter Leeuwe itself does not provide such insurances.
- The owner of the donor mare is responsible for any insurance that is required for the donor mare and / or the pregnant recipient mare and / or the in-utero foal
- From 45 days of pregnancy the recipient mare can stay at a pension of 12 € / day. Follow up of the gestation, parturition and holding of recipient mare and foals up to weaning age is possible.

- The mare owner is responsible for parenting tests for each embryo transfer foal.
- The mare owner is responsible for all studbook registrations and regulations.
- If at any time K.I. Hof Ter Leeuwe, in his own judgment and discretion decides that the donor mare or recipient mare must go to a veterinary clinic for medical or surgical treatment, the owner remains responsible for all costs. These costs are invoiced separately and must be paid before the animal can return to K.I. Hof Ter Leeuwe. K.I. Hof Ter Leeuwe will make reasonable efforts to contact the mare owner in the event that such a transfer is required. However, if the mare owner cannot be reached immediately, the owner hereby gives K.I. Hof Ter Leeuwe the authorization to make such transfer, care and treatment.
- The recipient mare is and remains property of K.I. Hof Ter Leeuwe and must return to K.I. Hof Ter Leeuwe in a good health and ultimately when the foal reaches the age of 6 months. If the undersigned wishes to keep the recipient mare longer, 100 € extra per month will be charged. When the recipient mare dies, or did not returned before 1 March of the following breeding season, K.I. Hof Ter Leeuwe charges 1200 €.
- No medical treatment may be carried out that excludes the recipient mare for human consumption. If a recipient mare is excluded for human consumption as a result of medical treatment, the owner will pay K.I. Hof Ter Leeuwe 1000 € for compensation of the financial loss.
- From day 45 of gestation, the undersigned is responsible for the recipient mare and her embryo. He / she is supposed to keep her in a good health (deworming, vaccination). For the prevention of abortion, he / she should vaccinate the surrogate mother against EHV 1,4 on 5, 7 and 9 months of pregnancy.

Zoutleeuw,/..../.....

KI Hof Ter Leeuwe

For the Client, owner of the embryo.
